

*Adopted: Orig. 6/23/2013*

*Revised: 8/25/2020*

## **531 WELLNESS**

### **I. PURPOSE**

The purpose of this policy is to assure a school environment that promotes and protects students' health, well being, and ability to learn by supporting healthy eating and physical activity.

### **II. GENERAL STATEMENT OF POLICY**

- A. The School Board recognizes that nutrition education and physical education are essential components of the educational process and that good health fosters student attendance and education.
- B. The school environment should promote and protect students' health, well being, and ability to learn by encouraging healthy eating and physical activity.
- C. The District encourages the involvement of students, parents, teachers, food service staff, and other interested persons in implementing, monitoring, and reviewing school district nutrition and physical activity policies.
- D. Children need access to healthy foods and opportunities to be physically active in order to grow, learn, and thrive.
- E. All students in grades K-12 will have opportunities, support, and encouragement to be physically active on a regular basis.

### **III. GUIDELINES**

- A. Foods and Beverages
  - 1. All foods and beverages made available on campus will be consistent with the current USDA Dietary Guidelines for Americans.
  - 2. School personnel will take every measure to ensure that student access to foods and beverages meet or exceed all federal, state, and local laws and guidelines.
  - 3. The District will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price school meals.
  - 4. The District will provide students access to hand washing or hand sanitizing

before they eat meals or snacks.

5. The District will make every effort to provide students with sufficient time to eat after sitting down for school meals and will schedule meal periods at appropriate times during the school day.
6. The District will discourage tutoring, club, or organizational meetings or activities during mealtimes, unless students may eat during such activities.

#### B. Nutrition Education and Promotion

1. The District will encourage and support healthy eating by students and engage in nutrition promotion that is:
  - a. Offered as part of a comprehensive program designed to provide students with the knowledge and skills necessary to promote and protect their health;
  - b. Part of health education classes as well as classroom instruction in subjects such as math, science, language arts, social sciences, and elective subjects, where appropriate; and
  - c. Enjoyable, developmentally appropriate, culturally relevant, and includes participatory activities, such as contests, promotions, taste testing, and field trips.
2. The District will encourage all students to make age appropriate, healthy selections of foods and beverages.
3. The District will not use foods or beverages as rewards for academic performance or good behavior (unless this practice is allowed by a student's individual education plan or behavior intervention plan) and will not withhold food or beverages as punishment.

#### C. Physical Activity

1. Students need opportunities for physical activity and to fully embrace regular physical activity as a personal behavior. Toward that end, health education will reinforce the knowledge and self-management skills needed to maintain a healthy lifestyle and reduce sedentary activities such as watching television;
2. Opportunities for physical activity will be incorporated into other subject lessons, where appropriate; and
3. Classroom teachers will provide short physical activity breaks between lessons or classes, as appropriate.

#### D. Communications with Parents

1. The District recognizes that parents and guardians have a primary and fundamental role in promoting and protecting their children's health and well-being.
2. The District will support parents' efforts to provide a healthy diet and daily physical activity for their children.
3. The school district encourages parents to pack healthy lunches and snacks and

refrain from including beverages and foods without nutritional value.

4. The District will provide information about physical education and other school-based physical activity opportunities and will support parents' efforts to provide their children with opportunities to be physically active outside of school.

#### **IV. IMPLEMENTATION AND MONITORING**

- A. After approval by the School Board, the wellness policy will be implemented throughout the District.
- B. School staff, at the school or District level, will ensure compliance within the school's food service areas and will report to the District official as appropriate.
- C. The School staff will ensure compliance with the wellness policy and will provide an annual report of the District's compliance with the policy to the School Board.
