526 TITLE ONE PARENT INVOLVEMENT POLICY

I. GENERAL STATEMENT OF POLICY

The District has qualified for Federal Title One funding. The funding will be used to increase reading and math ability. Title programs require an advisory group to assist with program determination and implementation. A Title One advisory group will be developed by October 15th each year with meetings held in October and March. The advisory group will consist of 2 District staff members and 3 parents of children identified. This group will look at student progress and refine/define the program.
